

AWARE-AI NRT: Workshop on Using Storytelling Techniques to Communicate STEM Research

IT / RIT Life / Events / AWARE-AI NRT: Workshop on Using Storytelling Techniques to Communicate STEM Research

Workshop on Using Storytelling Techniques to Communicate STEM Research

Facilitator: Ammina Kothari, Ph.D., Director of Harrington School of Communication & Media and Professor, Journalism, University of Rhode Island

Website: <https://harrington.uri.edu/meet/ammina-kothari-2/>

AWARE-AI Trainees and other graduate students will be introduced to storytelling mechanics and data visualization techniques for crafting jargon-free compelling messages for a broader audience on social media and other official communication channels.

Hosted by the AWARE-AI NSF Research Traineeship (NRT) Program, this free workshop welcomes NRT Trainees and other RIT graduate students.

The workshop requires registration. Please register by using the link from this website.

For more information about the AWARE-AI NSF Research Traineeship (NRT) Program and how to apply for a Traineeship, please see <https://www.rit.edu/nrtai/>
